Dear Sir/Madam

LICENSED WATER SERVICE WORKERS FOR WATER SERVICE WORK

It has come to our attention that some Town Councils have not been engaging Licensed Water Service Workers (professional engineers or licensed water service plumbers) and making the necessary submissions to PUB for replacement work for pipes, pipe fittings and water tanks.

2 We would like to remind all Town Councils that all water service work including replacement work for pipes, pipe fittings and water tanks (notwithstanding whether it is a one-to-one replacement) shall only be carried out by Licensed Water Service Workers. The water service workers shall notify PUB on prescribed forms before the commencement of works. Upon completion of the works, they shall submit a Certificate of Satisfactory Completion of Water Service Work certifying that the water service installation has been carried out and completed in accordance with the Public Utilities (Water Supply) Regulations, Singapore Standard CP 48 - Code of Practice for Water Services and all other relevant statutory requirements. Non-compliance is an offence under the Public Utilities Act and Public Utilities (Water Supply) Regulations.

3 We urge all Town Councils to ensure that all water service works including replacement works are carried out by Licensed Water Service Workers and that the necessary submissions are made to PUB before and after the works.
