**Proposed Reconstruction of Choa Chu Kang Waterworks (CCKWW)  
Environmental Impact Assessment Report**

PUB, Singapore's National Water Agency (PUB) has completed the Environmental Impact Assessment (EIA) study for the above-mentioned project. This reconstruction of Choa Chu Kang Waterworks (CCKWW) project is required to timely renew key water infrastructure to safeguard Singapore's water security and ensure a continued supply of good and safe drinking water well into the future.

Prior to the calling of the construction contract, the Environmental Impact Assessment (EIA) was conducted from 3Q2021 to 4Q2021 for the proposed reconstruction. The objective is to establish environmental baseline conditions of the study areas, develop mitigation measures against anticipated impacts from during construction, and to prepare the scope for the Environmental Monitoring and Management Plan (EMMP) during the construction works.

Nature Group (NG) engagement session were held on 26 Mar 2022, together with NParks, and URA. Their feedback have also been incorporated in the EIA report.

The EIA report will be available online at PUB's website (<https://www.pub.gov.sg/resources/publications/EnvironmentalStudies>) for public feedback from 04 July 2022 to 01 August 2022. For enquiries and feedback related to the e-gazette and EIA report, please contact Mr Neo Hong Chuan at [Neo\\_Hong\\_Chuan@pub.gov.sg](mailto:Neo_Hong_Chuan@pub.gov.sg) and Mr Lim Ooi Kwan at [Lim\\_Ooi\\_Kwan@pub.gov.sg](mailto:Lim_Ooi_Kwan@pub.gov.sg).
