Water is an essential service and many of our PUB officers continued to work on site daily to ensure the smooth running of Singapore's water systems even during the COVID-19 pandemic.

Officially opened by Prime Minister Lee Hsien Loong on 4 Feb 2021, the Keppel Marina East Desalination Plant is Singapore's first large-scale dual-mode desalination plant, capable of treating either seawater or freshwater from the Marina Reservoir. (Photo credit: Keppel)
