

MEDIA FACTSHEET

Singapore International Water Week 2026

Event Details

- Dates / Days : 15 – 18 June 2026 (Mon – Thu)
- Venue : Sands Expo & Convention Centre, Marina Bay Sands, Singapore

Significance and Themes

- Launched in 2008, Singapore International Water Week (SIWW) 2026 will be its 11th edition.
- As one of the premier global platforms for urban water, coastal and flood solutions, the biennial SIWW is expected to gather 2,500 leaders, experts and practitioners from governments, cities, utilities, and industry, and receive over 25,000 trade visitors.
- SIWW2026 will focus on Municipal Water Solutions, Coastal and Flood Resilience and Industrial Water Solutions. These themes reflect the key challenges faced by water utilities, agencies, cities, regulators and industrial water users globally.
 - [Municipal Water Solutions](#), including AI & digitalisation, water & resource circularity, nexus approaches, treatment, reuse & desalination technologies, network management, used water management, water quality & one health, financing
 - [Coastal & Flood Resilience](#), including flood risk assessment, multi-functional adaptive land use planning, nature-based solutions, blue-green infrastructure, flood mitigation operations, disaster recovery, community resilience, adaptation financing
 - [Industrial Water Solutions](#), zero liquid discharge, ultrapure water, water reuse, real-time sensors & automation, pollution control, sustainable water management practices, trade effluent discharge

Programme Highlights

THOUGHT LEADERSHIP	
SIWW2026 Opening	<p>The official opening of Singapore International Water Week (SIWW) 2026, will be attended by over 3,000 guests, delegates and exhibitors.</p> <p>Key highlights include an opening address by Guest-of-Honour, Singapore's Deputy Prime Minister and Minister for Trade and Industry, Mr Gan Kim Yong, the Lee Kuan Yew Water Prize 2026 Award Ceremony, and a high-level Ministerial plenary.</p>
Lee Kuan Yew Water Prize	<p>A prestigious, internationally recognised award conferred on an individual or organisation for outstanding contributions towards solving the world's water problems by developing or applying innovative technologies, policies or programmes which benefit humanity.</p> <p>The 2026 Laureate will receive the Prize Medallion from Guest-of-Honour at the award ceremony held during the official opening of SIWW2026 on 16 June 2026. The Laureate will also deliver a keynote lecture the same day.</p>
SIWW Keynotes	<p>Keynote presentations delivered by scientific and industry thought leaders addressing critical urban water and climate challenges to build a more resilient and sustainable water future. This includes the lecture delivered by the winner of the 2026 Lee Kuan Yew Water Prize.</p>
Coastal and Flood Resilience Leaders Summit	<p>High-level panels where government, city and industry leaders share successful coastal and flood management strategies, policies and projects implemented in global cities to tackle the effects of climate change and sea-level rise.</p>
Water Leaders Summit	<p>A high-level panel where utility, industry and regulators share and exchange best practices and successful case studies on emerging topics of interest to utilities.</p>
Titans of Industry	<p>A high-level panel of global industry CEOs who will share their corporate vision and strategy as leaders in urban sustainability, resilience and innovation, and how they work with and support their utility and industrial clients globally to achieve win-win business outcomes.</p>
Utilities CEO Roundtable (by-invitation)	<p>This by-invitation Roundtable offers CEOs and senior utility leaders the opportunity for peer-to peer learning and sharing, and to foster closer collaboration between utilities to solve emerging challenges.</p>

Emerging Utility Leaders Summit (by-invitation)	A by-invitation leadership programme for next-generation water utility leaders to engage with and learn from senior utility and industry leaders, and to build networks with peers.
SOLUTIONS & TECHNOLOGY	
Water Convention	Co-organised with the International Water Association, the Water Convention is one of the flagship programmes of SIWW, providing a platform for water experts and professionals to share cutting-edge research, breakthrough technologies and best practices in six themes across the urban water cycle. More than 50 sessions will be presented including thematic workshops, technical sessions, poster session and keynotes.
TechXchange	A technology platform for global scale-up companies who are interested in the Asian market to present their ready-to-go technologies and solutions to utility and industry end-users, venture capitalists and accelerators/ incubators.
Industrial Water Solutions Forum	A technology platform for industrial water users to learn about the latest industrial water technology solutions and innovations, to help reduce their water footprint, improve operational efficiency, meet regulatory discharge regulations and achieve their ESG objectives.
Technical Site Visits (ticketed separately)	Site visits to PUB facilities, research centres of excellence and innovation labs that offer first-hand experience to Singapore's integrated approach in achieving water sustainability.
BUSINESS & NETWORKING	
Water Expo	Organised by Messe Munich, and in cooperation with IFAT, the SIWW Water Expo is the pre-eminent marketplace for the international water, coastal and flood community to converge and find opportunities in business. It will feature more than 20 country/regional Pavilions and close to 500 international exhibitors.
Networking Functions	Welcome reception and daily happy hour present networking opportunities amongst delegates and exhibitors in an informal setting over drinks.
Partner Events	Co-located event organised by SIWW's partners that augments the content presented by SIWW, exploring trends, opportunities, and challenges in the water sector to identify solutions and high-impact collaborations.
