

# FP WATERHUB PTE LTD

**ULTRA-ECM SILT & SEDIMENT TREATMENT SYSTEM for Storm-Water Management**  
*Earth Control Measure*

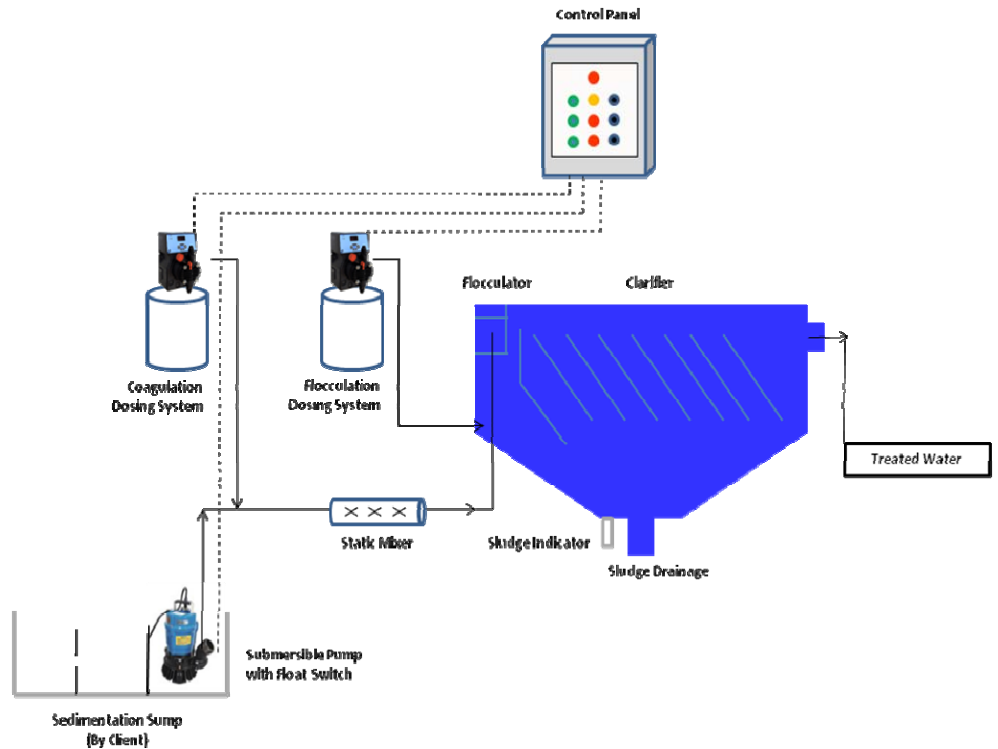

Model: FP-WW-40, Capacity: 40m<sup>3</sup>/hr

Our **ULTRA-ECM Silt & Sediment** Treatment Systems are designed to treat silt & sediment/run-off water from earthwork and construction sites. It is a robust, simple and cost effective treatment system. Operation is automatic with little attendance for long period of time. No operator experience is required as the control panel is simple and safe.

- Fully-automatic & 24-hr workhorse
- Submersible pump with float switch
- Low running cost
- Easy maintenance
- Single or Three Phases

Model: FP-WW-05, Capacity: 5m<sup>3</sup>/hr

Model	Capacity	Voltage	Dimension
FP-WW-03	3 M <sup>3</sup> /HR	220V/1PH	1.2 (L) X 1.2 (W) X 2.0 (H) M
FP-WW-05	5 M <sup>3</sup> /HR	220V/1PH	1.8 (L) X 1.2 (W) X 2.0 (H) M
FP-WW-10	10 M <sup>3</sup> /HR	220V/1PH	2.4 (L) X 2.0 (W) X 2.0 (H) M
FP-WW-20	20 M <sup>3</sup> /HR	415V/3PH	4.0 (L) X 2.0 (W) X 2.0 (H) M
FP-WW-40	40 M <sup>3</sup> /HR	415V/3PH	6.0 (L) X 2.0 (W) X 2.3 (H) M
FP-WW-60	60 M <sup>3</sup> /HR	415V/3PH	6.0 (L) X 2.0 (W) X 2.6 (H) M

Customized capacities also available upon request
