

# ARE YOU THE KEY TO A SUSTAINABLE FUTURE?

The Singapore Sustainability Scholarship is looking for game-changers with the foresight to anticipate future challenges and develop solutions. Embark on a fulfilling career with us and be a part of Singapore's sustainability story.

Read on for more information on the scholarship.

*The Scholarships Team will review all applications submitted via the Brightsparks portal and only shortlisted candidates will be notified for further selection.*

## WATER

## FOOD

## ENVIRONMENT

## A SUSTAINABLE FUTURE BEGINS WITH YOU

The Singapore Sustainability Scholarship is awarded to young talents keen to develop a career in the environment, water or food security sectors. Scholars will have the opportunity to make meaningful contributions to unlock sustainable solutions for Singapore's future.

Upon graduation, scholarship recipients will embark on an exciting career with either NEA, PUB or SFA. They will have the opportunity to make meaningful contributions through a diverse range of roles including mitigating climate change, encouraging energy efficiency, developing Singapore's water resources and fostering food science and technology development.

## HONE YOUR EXPERTISE

We welcome passionate individuals who are interested in pursuing the following disciplines:

### ENGINEERING

- Civil/Mechanical/Chemical/Environmental/Electrical

### SCIENCES

- Chemistry/Physics/Biology
- Environmental Sciences
- Life Sciences
- Geophysics
- Earth Sciences
- Meteorology
- Mathematics
- Analytics/Statistics

### ENGINEERING

- Civil/Mechanical/Electrical/Environmental/Computer

### SCIENCES

- Computer Science
- Data Science

### SCIENCES

- Agricultural Sciences
- Aquaculture
- Biological Sciences/Life Sciences
- Chemistry
- Food Science/Food Technology
- Microbiology
- Toxicology

\*Individuals from other related disciplines not listed above are welcome to apply.

## YOUR APPLICATION JOURNEY

Application period: Oct - Mar (2 weeks after release of 'A' Level results)

### • Singapore Sustainability Scholarship

- All interested students (i.e. 'A' Level, International Baccalaureate (IB), Polytechnic and NUS High students) may apply for the undergraduate scholarship.
- Undergraduates from local universities and reputable overseas universities are welcome to apply for the Mid-Term Scholarship.

### Internship

Assessed through  
**projects and presentations**

Candidates are expected to complete 4-8 weeks of internship with PUB or NEA and present their project findings to the agency for recommendation of the scholarship.

### Open Application

Assessed through  
**activity-based assessments**

Shortlisted applicants who applied through the open application after the release of the 'A' Level results will be put through activity-based assessments.

### • Master's Scholarship

- Fresh graduates may apply for the Master's Scholarship.
- Applicants who are currently pursuing/interested to pursue a Master's or PhD at an established university (local or overseas) are invited to apply for the SFA Postgraduate Scholarship.

## APPLY NOW

Embark on a fulfilling career with us and be a part of Singapore's sustainability story. Scan the QR code to apply for the scholarship or for more information about the internship.

# GET TO KNOW US

## ABOUT NATIONAL ENVIRONMENT AGENCY

Formed on 1 July 2002, the National Environment Agency (NEA) is the leading public organisation responsible for ensuring a clean and green environment, and the sustainable development of Singapore. Its key roles are to protect Singapore's resources from pollution, maintain a high level of public health and provide timely meteorological information.

NEA also develops and spearheads environmental initiatives and programmes through its partnership with the People, Public and Private sectors. It is committed to motivating every individual to care for the environment as a way of life, in order to sustain a quality living environment for present and future generations.

## ABOUT PUB, SINGAPORE'S NATIONAL WATER AGENCY

PUB is a statutory board under the Ministry of Sustainability and the Environment. It is the national water agency, managing Singapore's water supply, water catchment and used water in an integrated way. PUB has ensured a diversified and sustainable supply of water for Singapore with the Four National Taps (local catchment water, imported water, NEWater and desalinated water).

PUB calls on everyone to play a part in conserving water, keeping our waterways clean, and caring for Singapore's precious water resources. If we all do our little bit, there will be enough water for all our needs – for commerce and industry, for living, for life.

## ABOUT SINGAPORE FOOD AGENCY

As the lead agency for food-related matters, SFA's mission is to ensure and secure a supply of safe food for Singapore. SFA works hand-in-hand with the industry and consumers to grow our three "food baskets" – diversify import sources, grow local and grow overseas – as well as ensure food safety from farm-to-fork.

SFA also partners food businesses to strengthen capabilities, tap on technologies to raise productivity, undertake research to develop new lines of business and catalyse industry transformation to ensure food security.
