**Interesting Facts**

- **Tembassu (Vagaria Sargaca)**
  - The tallest, long-lived tree can reach 80m in height. The bark is smooth, grey and thick. The flowers are small and deeply fragrant. The fruits are orange in color and seed is white. The tree is found in the moist deciduous forest.

- **White-bearded Sea Eagle (Haliaetus leucoryphus)**
  - The sea eagle, the biggest bird of prey in Singapore. It has an impressive wingspan of 2.5m. It is a long, smooth and sleek white bird with a bright beak.

- **Striated / Little Heron (Butorides striata)**
  - The heron is a greyish bird with a long neck and long legs. It can live up to 30 years.

- **Yellow Flame (Ithopogon tropicus)**
  - The yellow flower is a beautiful, yellow tree with rich, spreading branches that can reach 50m in height. It has small green leaves that are slightly rough. The flowers have prominent scapes and flowers are yellow with maroon petals arranged in a cluster. The flowers are purple and attractive. The best time to see it is between December and September.

- **Collared Kingfisher (Alcedo collaris)**
  - The collared kingfisher is the national bird of Singapore. When the sun sets, it is easy to see the bird. It is a long, straight and slim black bird with a prominent white collar around the neck.

**Did You Know?**
- This is the same species that is found on the back of the Singapore five-dollar bill.
